Chemicals and compound materials used in cold drinks

†2055. SHRI LALIT KISHORE CHATURVEDI: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether different chemicals and other compound materials are used in Pepsi, Coca Cola and other cold drinks of such type;

(b) if so, the names of those chemicals and materials alongwith the quantity thereof;

(c) whether it is a fact that such contents are used in these cold drinks which are extremely injurious to health;

(d) whether all chemicals and compound items used in them have been got tested and if so, the outcome thereof: and

(e) whether it would be made obligatory for the manufacturers of cold drinks that they inscribe on every container the name and quantity of chemicals and compounds used in it?

THE MINISTER OF HEALTH AND FAMILY WELFARE (DR. ANBUMANI RAMDOSS): (a) to (e) The products Coca-Cola and Pepsi are covered under the standards, of Carbonated Water, prescribed under the PFA Rules, 1955. A copy of the standards of Carbonated Water which provides the details of the different ingredients and other additives, their permissible level in the final product, is given in the enclosed Statement (See below).

Testing outcomes show that the products conforming to the above standards are safe for human consumption.

The lebeling provisions have been prescribed under PFA Rules which have to be adhered to by the manufacturer.

The name and quantity of each chemical or compounds used need not be inscribed on the Container.
